

MOHAMED MUJEEB FATHIMA MUSFIRA

Full-Stack Development & Application Security

Kegalle, Sri Lanka | 0776774868 | mushfiramujeeb22@gmail.com | linkedin.com/in/musfiramujeeb | github.com/MusfiraMujeeb

EXECUTIVE SUMMARY

Information Systems undergraduate who builds full-stack web applications end to end — React/Next.js frontends, Node.js/Express backends, and secure APIs — with hands-on experience hardening a production platform using JWT authentication, rate limiting, and MongoDB sanitization. Seeking an internship in software development or IT where I can build real products and bring a security-conscious approach to engineering.

TECHNICAL SKILLS

Programming & Web: JavaScript, TypeScript, React, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS

Cloud & Backend: Firebase, Firebase Admin SDK, Cloudinary, REST APIs, Socket.IO

Databases: MySQL, MongoDB, Mongoose

Security: JWT, CORS, Rate Limiting, MongoDB Sanitization, HTTPS/SSL/TLS, API Security, Secure File Upload Validation, Helmet

Tools: Git, GitHub, VS Code, Android Studio, Vite

Penetration Testing (in progress): Web Security Fundamentals, Reconnaissance & Vulnerability Testing, Burp Suite, Security Reporting — IqraSec Academy WAPT Internship

PROFESSIONAL EXPERIENCE

Web Application Penetration Testing Intern — IqraSec Academy

Sep 2026 – Oct 2026 (Expected)

- Selected for Cohort 02 of the IqraSec Academy Cybersecurity Internship Program (WAPT track), a remote, security-focused internship applying web application penetration testing skills.

Web Application Developer — LankaServe (Capstone Project)

Nov 2025 – Jun 2026

- Built customer- and provider-facing interfaces using React, TypeScript, Vite, and Tailwind CSS for a multi-application service marketplace platform.
- Architected backend services with Node.js, Express.js, MongoDB, and Mongoose, enforcing structured data modeling and secure API processing pipelines.
- Integrated authentication and authorization using Firebase Authentication, Firebase Admin SDK, and JWT.
- Applied Helmet, CORS, rate limiting, and MongoDB sanitization to harden backend APIs against common attack vectors.
- Implemented secure file-upload processing using MIME-type validation and Cloudinary integration.
- Built real-time messaging and notifications using Socket.IO; collaborated across web, mobile, backend, and AI-integrated components.

Web Development & Digital Support — Laser Tech.lk

Jan 2026 – Present

- Developed and deployed the company's first website, establishing its initial online presence.
- Designed and implemented responsive, accessible web interfaces; troubleshoot issues and ship improvements based on business requirements.
- Applied Git version control throughout development and maintenance.

EDUCATION

BSc (Hons) in Information Systems — Sabaragamuwa University of Sri Lanka

2024 – 2028

CERTIFICATIONS & TRAINING

- Google Cloud Skills Boost — Derive Insights from BigQuery Data (Sep 2026)
- Google Cloud Skills Boost — Monitoring in Google Cloud (Aug 2026)
- Google Cloud Skills Boost — Analyze Sentiment with Natural Language API (Aug 2026)
- Introduction to Security Principles in Cloud Computing (Aug 2026)
- Cisco Networking Academy — Introduction to Cybersecurity (Aug 2026)
- University of Moratuwa Open Learning — Full Stack Web Development: Web Design for Beginners (ongoing)
- University of Moratuwa Open Learning — Project Management (ongoing)

COMPETITIONS

- CodeRally 6.0, IEEE Computer Society Student Branch Chapter of IIT — Intermediate Tier, Team Code_Raiders
- IDEALIZE 2025, AIESEC University of Moratuwa — Team Web Wizards; contributed to DiaSaver, an AI-powered diabetes risk assessment app

EXTRACURRICULAR LEADERSHIP

- Designer, Leo Club of Sabaragamuwa University of Sri Lanka
- Event Coordinator, Rotaract Club of Sabaragamuwa University of Sri Lanka
- Student Member, Society of Computer Sciences (SOCS), Sabaragamuwa University of Sri Lanka
